

# EWA Warrior Services: Division Overview

## EWA Warrior Services

EWA Warrior Services is a premier provider of specialized defense and security solutions, delivering cutting-edge technology and strategic support to the Department of Defense and other government agencies. With combined expertise in electronic warfare, cybersecurity, intelligence operations, and mission-critical systems, we ensure operational superiority in complex and evolving threat environments. Our capabilities include advanced command-and-control (C2) support; full-spectrum electronic warfare capabilities; space operations support; jamming technologies to counter hostile threats; and Assured Position, Navigation, and Timing (A-PNT) systems to maintain operational effectiveness in GPS-contested environments. Our team of highly skilled professionals brings years of experience and innovation to every project, offering tailored solutions that enhance national security and defense capabilities. Dedicated to excellence, reliability, and mission success, EWA Warrior Services remains at the forefront of advancing tactical and technological superiority for our clients.

## Capabilities

### Electronic Warfare

- Rapid prototyping of full-spectrum EW systems that provide electronic support, electronic protection, and electronic attack capabilities
- Development of EW systems that are integrated into all test and training ranges supporting T&E
- Development of electronic warfare reconnaissance and intelligence-gathering systems

### Threat Systems

- Rapid prototyping of threat systems
- Development of current and modern threat systems to support Operational Testing and Development Testing
- Rapid prototyping of RF systems to create realistic RF environments for T&E and training
- SME support for T&E and training environments

### Space Test Systems

- Transportable Range Operations Center
- Support for space EW assessments and signal interference analysis for contested environments.
- Full-spectrum test planning, execution, and analysis for government space systems

### Cyber

- Cyber threat intelligence analysis, research, replication, and extenuation
- Cyber defense training techniques for cyber protection teams
- Cyber technical expertise for DOT&E, including EM activities, IA, red team, and more

### Operations, Maintenance, Sustainment, Validation, Certification, & Accreditation

- Support services to Army Test Command supporting army test ranges
- Operations and maintenance support to Army premier training ranges
- End-to-end validation, certification, & accreditation: intelligence analysis, data collection, and report documentation and processing

## Our Customers

## NAICS Codes

541330 | 332993 | 334111 | 334310 | 334515 | 334519 | 336411 | 336412 | 336414 | 336415 | 336419 | 336992 | 541519 | 541714 | 541715

## Our Contracts

- Modernizing Instrumentation Systems Test & Eval. (MISTE)
- Threat Systems Operations and Maintenance Integrated Support II (TSOMIS II)
- Electronic Support, Attack, and Protection (ESAP)
- Combat Environmental Instrumentation Systems (CEIS II)
- Enterprise-Wide Agile Acquisition Contract (EWAAC)
